Disabling the Google Chrome Pop-up Blocker

Pearson Middle East Technical Support

Introduction

- Google Chrome features a pop-up blocker that can prevent new windows from opening.

- We recommend turning off all pop-up blockers while using Pearson web sites.

- Please follow the instructions in the upcoming slides to be sure that most new windows that open on Pearson web sites are not blocked.
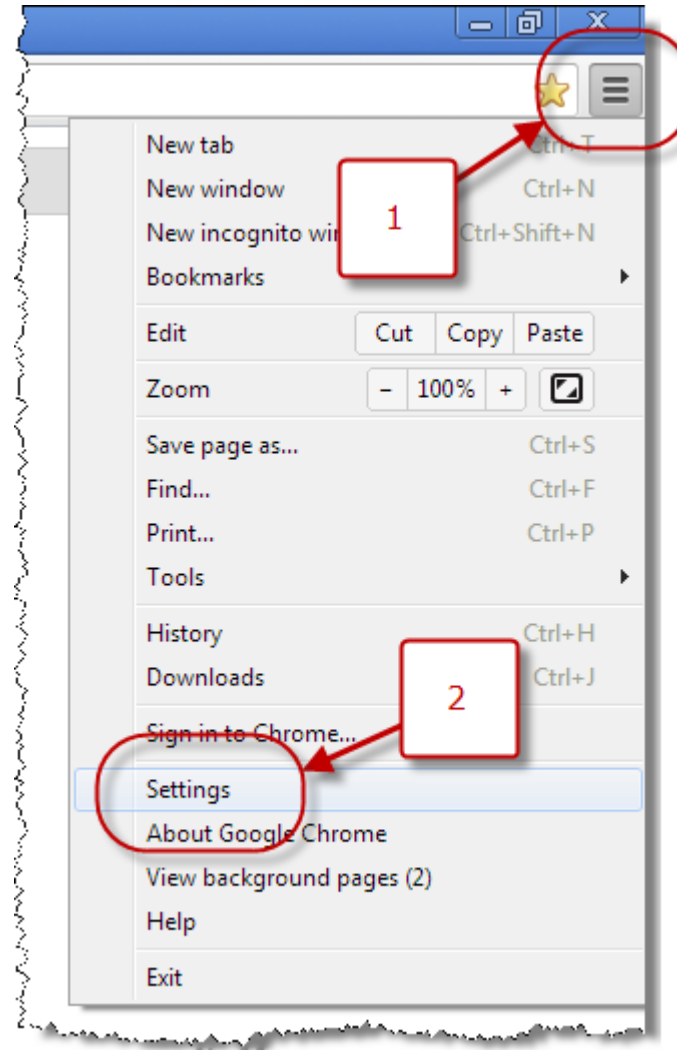

Note: To access content after disabling or configuring your pop-up blocker you may need to refresh the web page.

ALWAYS LEARNING

PEARSON

Accessing the Google Chrome Settings menu

**Step 1:** Open Chrome and click the Chrome menu (☰), or in older versions, the wrench icon (🔧).

Step 2: *In Windows:* Click **Settings** (or in older versions, **Options**)

In Mac OS X: Click **Preferences**.
