Respondus Server Setup for Blackboard Learn

1. Open Respondus

2. Select Current Personality as “Blackboard 7.x – 9.x”

3. Open any of the Test quiz
4. Click “Preview & Publish” -> Publish to Blackboard -> Publish Wizard

5. Select “Add New Server” from Blackboard Server dropdown. Select, Yes, check for preconfigured server settings and click Next.
6. Provide the below highlighted information (username/password – should be your HCT AD username/password) and click Next.
7. You will get the success message as below, click next and again click “Finish”.

8. Now you will see a new server added to your server list and you are ready to publish quiz to Blackboard Learn, by clicking Next.
